- HTML5 / CSS3 / SASS / Tailwind CSS
- JavaScript/TypeScript
- React.js/ Next.js / Vue3
- Node.js / Express / Prisma
- REST API / Axios / JWT

SOFT SKILLS

- Attention to detail
- Teamwork & collaboration
- Creativity
- Good communication
- Diligent
- Flexibility & adaptability

LANGUAGES

- English - Basic
- Ukrainian - Native
- Russian - Native

I am a Junior Fullstack Developer with 1 year of professional experience working in freelance teams. I specialize in developing responsive, multilingual, and scalable web applications. My expertise covers React, Next.js, Vue3, TypeScript, Node.js, Express, Tailwind CSS, Prisma, and integration of AI solutions. I would like to be part of a friendly and professional team where I can develop my development skills to achieve team results. I have good analytical and communication skills. I am very attentive to details. I have a desire to learn. I work effectively both in a team and individually.

PROJECT EXPERIENCE

AI-Powered Nutrition Assistant — Telegram Web App (Mobile-focused) **React (Vite), TypeScript, Tailwind CSS, Framer Motion, Node.js, Express, Prisma, Supabase, OpenAI API, JWT**

Commercial Telegram app for personalized nutrition advice. Implemented Telegram login, bot integration, AI-based meal analysis, dietary course generator, and fullstack logic.

Classifieds & Auction Marketplace Web App **Next.js, TypeScript, Tailwind CSS, Framer Motion, Node.js, Express, Prisma, Supabase, JWT, Next-Intl, Swiper**

Fullstack marketplace with multilingual support, dynamic currency conversion, social login (Google, Facebook), role-based features, and pixel-perfect adaptive design.

CRM Web Application for Water Delivery and Vending Machine Management **React (Vite), TypeScript, Tailwind CSS, Framer Motion, Recharts, Axios**

CRM for managing delivery and vending machine settings. Built role-based access, financial data visualization, backend API integration, and dynamic UI for large data sets.

WORK EXPERIENCE

Fullstack / Frontend Developer (Freelance team) **Remote | May 2024 — present (1 year)**

Commercial experience as part of a freelance development team.

- Fullstack and frontend development of real-world web apps (CRM, marketplace, AI-powered Telegram app, e-commerce, and landing sites).
- Technologies: React, Next.js, Vue3, TypeScript, Node.js, Express, Tailwind CSS, Prisma, Supabase, JWT, OpenAI API, and more.
- Responsible for frontend logic, adaptive UI, backend integration, social auth, multilingual support, and role-based access.

Auditor of inventory items

LK-TRANS LLC | Jun 2019 - up to now

- Controlled procurement, financial analysis, and compliance in retail equipment management.

EDUCATION

IT School GoIT (Kyiv)

Good afternoon!

My name is Vladislav. I have completed a 10-month Fullstack Development course at GoIT Academy and gained 1 year of commercial experience working in freelance teams as a **Junior Fullstack / Frontend Developer**.

I have practical experience with **React, Next.js, Vue3, TypeScript, Node.js, Express, Prisma**, and modern tools such as **Tailwind CSS, Framer Motion, Axios**, and **OpenAI API**. I worked on various projects, including marketplaces, CRM systems, AI-based Telegram assistants, and multilingual web applications.

In my work, I focus on **attention to detail, responsibility**, and **continuous learning**. I am eager to contribute to new projects, improve my qualifications, and develop as part of a professional and friendly team.

Currently, I work as an **Inventory Auditor** at **LK-TRANS LLC** (food retail). My responsibilities include controlling equipment procurement, monitoring warehouse stock levels, analyzing company expenses, and ensuring compliance with operational rules. The skills I have gained — **communication with different departments, analytical thinking**, and **reporting** — I believe will be valuable in IT as well.

I would be grateful if you could take the time to review my resume and contact me if my experience and skills match your needs.

Respectfully,

Vladislav
